Minimum Spend

IMI has a 'minimum spend' requirement of £2,500 per year. When a centre's annual fee is due, the amount the centre has spent with the IMI during the previous year will be calculated. Should this amount be below £2,500.00, the centre will be charged the balance along with their annual fee for the forthcoming year.

All IMI business discounts are determined based on the annual turnover of the individual business with IMI. This approach enables us to apply discounts consistently across our customer base, with the level of discount reflecting the value of business undertaken with us.
